

Parts of a Map

A map is a drawing, on a flat surface, of a part of the Earth.

Title: Tells you what region or place the map represents.

Compass Rose: Shows the directions: north, south, east, west.

Grid: Evenly spaced horizontal and vertical lines which help you locate a particular area on the map.

Symbol: Represents a feature or object on the ground.
Example: Blue wavy lines may represent a lake.

Key/Legend: Explains what the symbols on the map represent.

Scale: The relationship between the distance on the map and the actual distance on the Earth's surface.

Example: 1 inch on the map may equal 1 mile on the Earth's surface.
